EDUCATION

Imperial College London - BSc Mathematics

September 2021 - June 2024

- First Year - Achieved 85% overall, placing in the top 5% for overall academic performance.
- Second Year - Achieved 86% overall, placing in the top 5% for overall academic performance.

Reading School - A-levels

September 2019 - June 2021

- Mathematics: A*, Further Mathematics: A*, Physics: A*, Extended Project Qualification: A*

EXPERIENCE

Student Researcher, Supervised by Professor Alessio Lomuscio

July 2023 - August 2023

Imperial College London - Verification of Autonomous Systems Group

- Investigating neural network generalization focusing on PAC learning theory. Refined the evaluation of PAC bounds using testing certificates on regions of the input space.

Student Researcher, Supervised by Dr Dean Bodenham

September - October 2022

Imperial College London

- Investigating how programming languages (Python, R, C++) generate pseudo-random numbers. Developing a repository of functions to align pseudo-random number generators.

Data Consultant

June - September 2022

BAE Digital Intelligence

- Investigating project operations and developing strategies to improve resource utilization. Tasks involved working with database infrastructure (SQL, Java), AWS and developing a data dashboard in Python (Dash, Selenium).

Website Administrator

December 2021 - Present

Imperial Wiki Society

- Working on a student-led initiative to develop an online platform to host supplementary material for modules taught at the university. My focus is on managing the project and developing resources for the mathematics modules.

Mathematics Tutor

October 2021 - July 2022

My Tutor

- Planning and delivering online lessons on a weekly basis, as well as conducting reports on a student's progress to deliver back to their parents and teachers.

PROJECTS

Using Region Testing to Evaluate PAC Bounds

July - August 2023

Imperial College London - Undergraduate Research Project

A Guide to PAC Bounds

July - August 2023

Imperial College London - Undergraduate Research Project

Jordan Algebras

June 2023

Imperial College London - Group Research Project

Reinforcement Learning Algorithm for HIV Treatment

March 2022

Imperial College London - Interdisciplinary Research Computing

Aligning Pseudo-Random Number Generators Across Programming Languages

September 2022

Imperial College London - Undergraduate Research Project

Point Processes for Equipment Failure Simulation

June 2022

Imperial College London - First Year Individual Project

AI Decision Making Perpetuating Social Imbalances and Injustices

December 2021

Imperial College London - Science and Communication Studies

Machine Learning and Its Applications in Particle Physics Research

June 2019

Reading School - Extended Project Qualification

PRESENTATIONS

- Jordan Algebras** *June 2023*
Imperial College London - Group Research Project
- Aligning Pseudo-Random Number Generation in Python, R and C++** *October 2022*
Imperial College London - 3-Minute UROP Thesis Talk

ARTICLES

- The Prime Minister's Mathematical Propositions** *July 2023*
Imperial College London - Faculty of Natural Sciences Blog Post

WORKSHOPS

- Global Challenges Project - X-Risk** *May 2023*
– A workshop on investigating approaches taken to AI safety research.
- Imperial Effective Altruism Society AI Safety Fundamentals** *October - December 2022*
– Comprised of eight group discussion sessions on the literature surrounding the concerns of powerful AI and the research on AI safety.

VOLUNTEERING

- Treasurer** *October 2021 - July 2022*
Imperial College London - Linstead Halls
- Dog Fosterer** *May 2020 - August 2022*
The Responsible Dog Rescue

TECHNICAL SKILLS AND INTERESTS

Spoken Languages (Intermediate): English, Italian
Programming Languages (Intermediate): Python, R, Latex
Libraries (Python): Numpy, Scipy, Pandas, Pytorch, Dash, Selenium
Programming Languages (Basic): C++, Python, HTML
Miscellaneous Qualifications : Royal Life Saving Society National Pool Lifeguarding Qualification, Bronze Duke of Edinburgh
